WHO'S YOUR ONE?

who's your ONE?

Spiritual challenge. Will you commit to praying for the salvation of one lost person and seek opportunities to share the gospel with him or her? It can be a friend, relative, coworker, classmate, or acquaintance. It can even be an enemy. After all, Jesus did tell us to love our enemies and pray for those who persecute us (Matthew 5:44).

Pray for and invest in one person the Lord places on your heart that needs Christ. Make a commitment today! Identify your one. Begin praying daily for your one and seeking opportunities to tell them about Jesus and invite them to church.

Will you commit?

WHO'S YOUR ONE?

Essential Errand Guidelines

Accepting deliveries and takeout orders

Limit in-person contact if possible.

Pay online or on the phone when you order (if possible).

Accept deliveries without in-person contact whenever possible. Ask for deliveries to be left in a safe spot outside your house (such as your front porch or lobby), with no person-to-person interaction. Otherwise, stay at least 6 feet away from the delivery person.

Wash your hands or use hand sanitizer after accepting deliveries or collecting mail.

After receiving your delivery or bringing home your takeout food, wash your hands with soap and water for 20 seconds. If soap and water are not available, use a hand sanitizer with at least 60% alcohol.

After collecting mail from a post office or home mailbox, wash your hands with soap and water for at least 20 seconds or use a hand sanitizer with at least 60% alcohol.

Banking

Bank online whenever possible.

If you must visit the bank, use the drive-through ATM if one is available. Clean the ATM keyboard with a disinfecting wipe before you use it.

When you are done, use a hand sanitizer with at least 60% alcohol. Wash your hands with soap and water for at least 20 seconds when you get home.

Getting gasoline

Use gloves or disinfecting wipes on handles or buttons before you touch them.

Use gloves or disinfecting wipes on handles and buttons before you touch them (if available).

After fueling, use a hand sanitizer with at least 60% alcohol. Wash your hands for at least 20 seconds when you get home or somewhere with soap and water.

CORONA VIRUS PREVENTION

CDC always recommends everyday preventive actions to help prevent the spread of respiratory diseases, including:

Avoid close contact with people who are sick.

Avoid touching your eyes, nose, and mouth.

Stay home when you are sick.

Cover your cough or sneeze with a tissue, then throw the tissue in the trash.

Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.

Follow CDC's recommendations for using a face mask.

CDC does not recommend that people who are well wear a face mask to protect themselves from respiratory diseases, including COVID-19.

Face masks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of face masks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).

Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.

If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty.

For information about handwashing, see CDC's Handwashing website

For information specific to healthcare, see CDC's Hand Hygiene in Healthcare Settings

These are everyday habits that can help prevent the spread of several viruses. CDC does have specific guidance for travelers.
