# WHO'S YOUR ONE?

**Spiritual challenge.** Will you commit to praying for the salvation of one lost person and seek opportunities to share the gospel with him or her? It can be a friend, relative, coworker, classmate, or acquaintance. It can even be an enemy. After all, Jesus did tell us to love our enemies and pray for those who persecute us (Matthew 5:44).

Pray for and invest in one person the Lord places on your heart that needs Christ. Make a commitment today! Identify your one. Begin praying daily for your one and seeking opportunities to tell them about Jesus and invite them to church.

Will you commit?

**WHO'S YOUR ONE?**

## **Important Message to Turkey Creek and Guest**

As we worship safely in person, we are continuously encouraging all members to get vaccinated as soon as possible. If you have already been vaccinated, please contact your deacon and let him know. We are also uploading a survey to our church's website to ascertain who has been vaccinated. If you need assistance in getting vaccinated, please call or text 478-272-9169. We look forward to a continuous safe return. Thank you for helping us keep you and others safe.

There will be temperature checks, masks requirements, etc. We are also asking all members to enter and exit the building through the front doors of the church. Families will be asked to sit together. Moreover, please read your return packet for additional information.

# CORONA VIRUS PREVENTION

**CDC always recommends everyday preventive actions to help prevent the spread of respiratory diseases, including:**

**Avoid close contact with people who are sick.**

**Avoid touching your eyes, nose, and mouth.**

**Stay home when you are sick.**

**Cover your cough or sneeze with a tissue, then throw the tissue in the trash.**

**Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.**

**Follow CDC's recommendations for using a face mask.**

**CDC does not recommend that people who are well wear a face mask to protect themselves from respiratory diseases, including COVID-19.**

**Face masks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of face masks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).**

**Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.**

**If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty.**

**For information about Handwashing, see CDC's Handwashing website**

**For information specific to healthcare, see CDC's Hand Hygiene in Healthcare Settings**

**These are everyday habits that can help prevent the spread of several viruses. CDC does have specific guidance for travelers.**
